

**CALL FOR NOMINATIONS
FOR
THE JOHN P. MCGOVERN COMPLEAT PHYSICIAN AWARD**

AWARD GUIDELINES

*"We are here to add what we can to,
not get what we can from, Life" - Sir William Osler*

HISTORY

In 1993, the 78 year old Houston Academy of Medicine, a 6,000 member professional organization, inaugurated a special annual award named in honor of its first recipient, John P. McGovern, M.D., Sc.D., who during his lifetime in medicine, has consistently embodied the great tradition of William Osler, M.D., F.R.S.

PURPOSE

The Award seeks to identify and recognize multi-accomplished physicians who have enriched the field of medicine with excellence and humaneness. In particular, individuals are sought who are compassionate clinicians and devoted teachers. They also should have a strong familiarity with research but must have demonstrated a commitment to, and love of, the profession of medicine. By acknowledging such individuals, it is hoped others, especially early in their medical careers, will be inspired and encouraged to emulate the qualities being honored.

CRITERIA

In addition to the general core attributes aforementioned a more detailed breakdown of the candidate's characteristics and achievements, which will be weighed in the selection, is given in the attached listing, "Criteria for Judging - John P. McGovern Award."

It is likely no candidate will have commendations in all categories. Moreover, even for activities listed, it is realized that each category will not be judged to be of equal importance. However, the outline does emphasize that candidates should have demonstrated breadth as well as depth and not be persons of narrow spirit and effort.

AWARD AMENITIES

Each year's honoree will receive a \$5000 honorarium; a beautiful plaque featuring a specially cast medallion; and a trip to Houston to receive the award at our annual Installation of Officers Banquet, customarily held in late January.

PROCESS

The judging committee is under the aegis of the Houston Academy of Medicine and annually will select from submitted nominations the candidate whose many personal and professional attributes best approach the ideal of a Compleat Physician. These guidelines are part of the information and solicitation packet distributed each year to medical organizations — county and state medical societies, the AMA, national specialty societies and teaching hospitals.
