Members supply their own information for the Roster and are responsible for its accuracy. The self-designated practice specialties utilized in the Roster are those recognized by the American Medical Association and do not imply "recognition" or "endorsement" of any field of medical practice. National Scientific Medical Organizations are supplied by members. The listing of the organization connotes membership only and does not necessarily indicate specific expertise. The specialty shown in each biography is that supplied by the member from the recognized list and does not necessarily constitute certification by the appropriate specialty board.
